Computer Management

Efficiency improvements

Fix-IT

Somethings gone wrong
Remote Access – share your screen with our technician
Effective Repairs – let our technicians sort it

Explain-IT

Like a piano teacher, but for computers
Bespoke Training – focus on what you need to achieve your goals
Learn Your Way - we all have a preferred learning style. Work at your pace.
Your Timetable – you set the schedule
In Plain English - we explain things at a level to suit you and won't confuse you with technobabble.
Home Comfort - 1-1 training, in your own home/business, on the computer you'll be using.

Service-IT

A tune-up and refresh
Declutter – organise your computer for faster access
Optimise – professional tune-up
Investigate - checking to find anything that can be improved
Clean - dusting the inside of the compute

Build-IT

Computers to suit your needs and budget
Tailored to You – what do I need?
To Suit Your Budget – save or spend as you wish
Aftercare and Support - Keep your computer running perfectly.
Brand New – making an investment
Refurbished – value on a budget

Computer Management

Efficiency improvements.
