

## Manage-IT

Let us handle your Microsoft subscription for you.

Our **Manage-IT** package provides Microsoft apps and support at very competitive prices.

### Licence Management

As a Microsoft reseller we can:

- Set up and manage Microsoft licences.
- Configure and optimise your systems
- Offer monthly subscriptions for less than buying them directly from Microsoft.com

### Email and Apps Setup

Which Microsoft 365 Apps do you need?

Do you need email accounts for your business?

With **Manage-IT**, we can:

- Help you choose the apps you need
- Set them up and configure them for you
- Set up the email accounts you need
- Make sure you're only paying for what you're getting (at the same rate or less than Microsoft direct)

Plus, you get our experience and access to support for free.

### Why Microsoft 365 for Business?

There are many differences between Microsoft 365 Home and Business:

#### Microsoft 365 Business

- Sharepoint - set up a directory that can be accessed by employees  
Great for polices, standardising marketing material, and templates.
- Access to additional apps – such as Teams & Access

#### Microsoft 365 Home

- OneDrive - personal storage for each person that can only occasionally be shared.
  - No access to additional apps
